PRODUCT ADVANTAGES

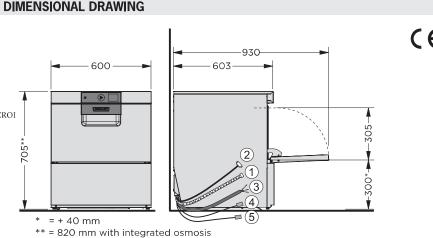

- Compact glasswasher: with an installation height of only 705 mm. With integrated reverse osmosis the installation height is 820 mm.
- VISIOTRONIC-TOUCH control: single USB-interface: comfortable button control with colour code and remaining cycle time indication. With colour display and touch.
- **WASHSMART APP:** controlling your warewash operation with smart technology: status and messages, usage and operating cost, hygiene, order service and consumables
- SENSO-ACTIVE resource management: constantly measures the quality of the wash water and keeps the amount of rinsing needed in each rinse cycle to a minimum in order to guarantee a fully hygienic wash result
- CLIP-IN wash and rinse arms: wash and rinse arms can be removed with one hand and without any tools

- Intelligent data documentation: automatic recording of important operational data and consumptions and indication on the display
- download of operational data in form of a protocol via USB
- GENIUS-X² fine filter system: advanced filter system with prewash function reduces detergent consumption up to 35%
- Intensive programme: intensive rinse cycle to wash glasses with critical design with raised fresh-water amount
- Interlocked strainer: prevents operation without tank strainer
- Optional 100% integrated Reverse Osmosis water treatment system adds 120mm to machine height item code GXCROI-90B
- Optional refill signal: monitors contents of external as well as integrated chemical containers
- Hygiene programme: for removal of calcium carbonate and other deposits from wash chamber

For machine protection the water hardness should not exceed 3°dH, if higher we recommend using an integrated water softener or an external water softener of the product line HYDROLINE PROTECT.
