

Dial A Cup Dispensers | DAC

DACS-30

DAC-5

LS-30

New design available with Metal Clips that do not leave marks or imprints on paper foam cups.

Protect margins and the health of customers with a low-cost, effective system to dispense cups and lids. Dial-A-Cup by Antunes cuts down on waste and prevents the spread of germs by dispensing cups and lids one at a time. With no more unused cups and lids piled on the counter or thrown in the trash, each and every beverage sale can generate the maximum amount of profit.

The Dial-A-Cup system features a one-size fits all concept that can hold paper foam, paper, and plastic cups and dispense them one at a time. The easily adjustable collar on the dispensers can fit cups ranging from 8 oz. to 64 oz.

These individual dispensers can be mounted vertically, horizontally, or overhead. Models are available with a stainless look collar as well as with metal clips that do not leave marks or imprints on paper foam cups.

Dispensers are also available in prearranged stainless steel cabinets. Cabinets are available in a variety of configurations, including individual compartments for straws and lids, to accommodate operations of all sizes.

All DACS and LS products include a 90-day warranty.

FEATURES

- New adjustment design.
- Suitable for paper foam, paper, or plastic cups.
- Cup size range: 8 oz. to 64 oz. standard size.
- Can be mounted vertically, horizontally, or overhead.
- Available for countertop use.
- Stainless steel construction for long life.
- LS series available with lid and straw dispenser.
- New DAC-5 and DAC-10 models available with metal clips that do not leave marks or imprints on paper foam cups.
